

## El Enemigo Semillón 2021

100% Semillón

### Harvest Report 2021

In general, the 2021 harvest year was cool and with slightly increased rains. We had an average of 15-20% less degree-days than in 2020, and the weather overall was a bit cooler than average. The yields for white varieties were low due to the October frost.

Vineyard  
Agrelo, Luján de Cuyo, 930 masl / 3051 ft.  
High density vineyard (10.000 plants per hectare).

Type of Soil
