

RICCITELLI INVADER CHENIN BLANC 2024

Thanks to the recovery of forgotten vineyards, Chenin Blanc has regained its place! Fans of this variety toast to the invasion of Chenin Blanc on the Argentine viticulture scene!

VINEYARDS AND SOILS

Chenin Blanc from old vineyards planted in the late 60s, on ungrafted vines on silty soils from Allen, Río Negro. In our vineyards we don't use any herbicides or systemic products, managing them in an agroecological way.

VARIETY

Chenin Blanc 100%

HARVEST TIME

First week of March

AVERAGE YIELD 5,000 kg/ha

ALCOHOL 11.0% VOL.

HARVEST

Manual harvest in small 20 kg boxes, to maintain the integrity of each bunch.

SELECTION

A meticulous hand selection is carried out prior to vinification

ELABORATION

Without skin maceration, gentle pressing. Fermentation begins in concrete eggs with native yeasts, without the addition of any foreign element, at temperatures between 14° and 16°C; it ends naturally in the bottle following the Ancestral Method of vinification.

AGING

Agging is carried out on its fine lees in bottle for 6 months

AGING 5 years.
